

Invitation
for this triple event of the year

Public Health Genomics
Conferences 17-20 April Rome

From Population Health to Personal Health

Radisson Blu, Rome 17-20 April 2012

The Genome-based Research and Population Health International Network (GRaPH-Int), the European Science Foundation "Forward Look on Personalised Medicine for the European citizen" (ESF) and the Public Health Genomics European Network (PHGEN) would like to inform you of **three upcoming back-to-back conferences** in association with the European Flagship Pilot for Future Emerging Technologies "IT Future of Medicine" (ITFoM) on **17-20 April 2012** at the **Radisson Blu Hotel in Rome**.

Future Healthcare will be quite
different from today's Healthcare!

Public Health Genomics

Conferences 17-20 April Rome

GRaPH-Int Symposium 17 April 2012

The GRaPH-Int Network is the leading voice at the global level in the field of Public Health Genomics and personalized healthcare. It bridges the translation process from basic research into policymaking and practice, and facilitates push-pull functions between academia, governmental bodies and the private sector.

ESF Stakeholder Conference 18 April 2012

In recognizing the importance of Personalised Medicine the European Medical Research Councils (EMRC) commissioned a Forward Look to gain insight into the needs for research programmes and infrastructures, policy and education. Please note that ESF is ON INVITATION ONLY.

PHGEN II Endorsement Panel and Final Conference 19-20 April 2012

The Public Health Genomics European Network (PHGEN) is the cornerstone in the development of Public Health Genomics in Europe. It is funded by the European Commission General Directorate for Health and Consumer Protection (DG SANCO) under the Health Programme. PHGEN II produces the first edition of "European Best Practice Guidelines for Quality Assurance, Provision and Use of Genome-based Information and Technologies".

All three meetings are organized in association with ITFoM.
